

MPF Annuitization with Investment and Longevity Pooling

Speaker: John G. Eng, FSA, EA

A retiree's income from MPF is dependent on the account balance and subject to investment and longevity risks. However, MPF retirees can use investment and longevity pooling to form a group annuity scheme to manage these risks. The MPF annuitization presentation will discuss the pricing of fixed and variable life annuity to provide for retirement income.

The presentation will also discuss the following topics:

1. Total retirement savings (MPF and personal savings) needed to maintain pre-retirement living standard
2. Group variable annuity design
3. Group variable annuity administration and operation

The presentation would be of interest to:

- Retirement actuaries on the retirement income and savings
- Life actuaries on annuity pricing and asset liability management
- Investment professionals on available Hong Kong and non Hong Kong investments
- Life industry professionals on retirement product development
- MPF employees with policy, administration, service...etc responsibility

John Eng worked 30+ years in the retirement plan area. For over 20 years, John worked in New York for Alexander & Alexander as actuary, Johnson & Higgins as VP Consulting Actuary and Mercer as Principal providing pension consulting to large US and foreign multinational corporations. John also worked 9 years as senior consulting actuary for CIBZ Actuarial & Benefit Consultants San Diego / Phoenix office. In between the US east and west coast employment, John worked 7 years in the Singapore life insurance industry and reinsurance area for the Southeast Asia region.
