

## 3.2 Life Insurance

### 3.2.1 Role of life insurance actuaries in Hong Kong<sup>1</sup>

Life insurance actuaries are involved in a wide varieties of areas within the industry. These include:

<b>Area</b>	<b>Application</b>
<i>Auditor</i>	Perform internal and external audit functions of insurance companies
<i>Banking and Financial Services</i>	Help banks and financial services companies with product portfolio, capital management and risk analysis in relation to life insurance
<i>Consulting</i>	Advise clients on actuarial and insurance related matters
<i>Entrepreneurial Actuaries</i>	A wide range of opportunities is available for actuaries who desire to set up and run their own business
<i>Predictive Analytics</i>	Use modeling and data analysis techniques on large data sets to discover predictive patterns and relationships for business use
<i>Pricing</i>	Determine product features and pricing
<i>Risk Management</i>	Perform risk management functions for an insurance company; it may cover financial and/or operational risks; or specific lines of business or an enterprise level
<i>Regulator</i>	Oversee the financial conditions and operations of authorised insurers; facilitating both the healthy development of the industry and the protection of policyholders
<i>Reinsurance</i>	Perform traditional actuarial duties for a reinsurer that would accept risk from a direct insurance company

<sup>1</sup> Reference to SOA website: <https://www.soa.org/future-actuaries/career-paths/>.

<b>Area</b>	<b>Application</b>
<i>Sales and Marketing</i>	Help set policies, messages and compensation levels for those directly involved in marketing and distribution
<i>Statutory Role / Appointed Actuary</i>	<p>A role stipulated by the Insurance Ordinance (Cap. 41) (IO) which can only be fulfilled by qualified professional actuaries. The responsibilities include, but are not limited to the following:</p> <ul style="list-style-type: none"> <li>• Set, validate and certify the adequacy of the insurance liabilities and financial / solvency position of the company;</li> <li>• Advise the company of the interpretation of its policyholders' reasonable expectations, and the transfer of assets between long term and shareholder funds;</li> <li>• Determine the appropriateness of premium rates charged;</li> <li>• Certify the information disclosed on Class C linked products is accurate;</li> <li>• Manage the potential conflict between its duty to policyholders and its duty to shareholders, particularly in relation to the declaration of non-guaranteed benefits for policyholders.</li> </ul>
<i>Senior Management</i>	Provide broad business and management leadership for an organisation
<i>Valuation</i>	Perform experience studies, cash flow testing and other tasks to set the amount of reserve and capital held by an insurer

### 3.2.2 Overview of the market landscape in Hong Kong

The Insurance Authority (IA) website provides a good source of reference material for an overview of the Hong Kong market. We recommend practitioners to analyse its annual reports and market & industry statistics to better understand the Hong Kong market dynamics. These cover general and long term insurance business. There is a prevailing trend of Mainland Chinese visitors buying life insurance in recent years. In 2017, they have contributed significant new office premiums which amounts to over HK\$50 billion of which 64% is from Medical / Protection policies and the rest is from Savings / Investment.

#### 3.2.2.1 Insurance companies and competitive environment

As at 31 December 2017, there were 47 pure long term insurers and 19 composite insurers.

According to the statistics as at 31 December 2017 provided by the Insurance Agents Registration Board (IARB), there were 2,447 insurance agencies, 63,933 individual agents and 25,881 responsible officers/technical representatives registered with the IARB.

There were 759 authorised insurance brokers as at 31 December 2017. All of them are members of the two approved bodies of insurance brokers, namely The Hong Kong Confederation of Insurance Brokers (HKCIB) and Professional Insurance Brokers Association (PIBA). In addition, there were 9,489 persons registered as chief executives/technical representatives of these authorised brokers as at 31 December 2017.

#### 3.2.2.2 Product types and classification

##### Chapter 41 Schedule 1 Classes of Insurance Business<sup>2</sup>

According to IA reporting, long term insurance business in HK is categorised into nine classes of business (Classes A to I), including individual and group life businesses. For individual life business, most of the inforce and new business today are Class A (non-linked life insurance) and Class C (unit linked) business.

For long term insurance business, the office premiums of new Individual Life business increased by 39.8% to HK\$179.1 billion in 2016 when compared with 2015. New office premiums for Individual Life (Non-Linked) business increased by 47.2% to HK\$173.4 billion,

---

<sup>2</sup> Latest statistics are available on the IA website: [https://www.ia.org.hk/en/infocenter/statistics/annual\\_long\\_term\\_business\\_statistics.html](https://www.ia.org.hk/en/infocenter/statistics/annual_long_term_business_statistics.html); previous years' statistics can also be found on past annual reports of the Office of the Commissioner of Insurance (OCI). For example, the relevant statistics are shown on pages 45-47 of the 2016 OCI Annual Report (<https://www.ia.org.hk/en/infocenter/files/AR2016.pdf>).

while Individual Life (Linked) business dropped by 44.6% to HK\$5.7 billion in terms of new office premiums. The total number of new policies increased by 8.5% to 1,267,560 in 2016.

For in-force business, the total office premiums increased by 23.8% from HK\$328.1 billion in 2015 to HK\$406.2 billion in 2016. The Individual Life category remained the dominant line of business, making up HK\$384.6 billion or 94.7% of the total business. The number of policies in 2016 stood at 12 million, carrying net liabilities of HK\$1,531.8 billion.

The in-force office premiums of Group Life business increased by 2% to HK\$3.3 billion, carrying net liabilities of HK\$1.1 billion.

According to the Medical Claim statistics published by HKFI (the most recently published statistics are as of 2015), HK insurers provide sizable group and medical insurance to the market. Based on the data collected by HKFI from 18 major insurers, the total billed amount of private medical expenses that with medical insurance coverage was HK\$7.3 billion and HK\$5.3 billion for Group and Individual respectively in 2015.

### **3.2.3 Regulations, professional standards, guidelines and industry standard practice**

#### **3.2.3.1 Qualification for appointment as an actuary in Hong Kong - Chapter 41A Insurance Companies (Actuaries' Qualifications) Regulation**

The IO prescribes the following qualifications for the appointment of an actuary by an insurer in carrying on long term business:

- Fellow of the Institute and Faculty of Actuaries of the United Kingdom
- Fellow of the Institute of Actuaries of Australia
- Fellow of the Society of Actuaries

#### **3.2.3.2 Chapter 41H Insurance Companies (Actuaries' Standards) Regulation**

Chapter 41H of the regulation stipulates that any actuary appointed under the IO Cap.41 section 15(1) must comply with "Professional Standard 1 (PS1)" approved by the Actuarial Society of Hong Kong (ASHK) (including any subsequent amendment thereto made with the approval of the Insurance Authority and the Secretary for Financial Services and the Treasury).

The roles and responsibilities of an appointed actuary are extensive, these include determining the appropriateness of the premium rates charged, validating and certifying the adequacy of the insurance liabilities and financial / solvency position of an insurance company, advising the board on the interpretation of policyholders' reasonable expectations, recommending on the transfer of assets between long term and shareholder funds, etc. Appointed actuaries must comply with PS1 when carrying out their duties.

### 3.2.3.3 Guidelines<sup>3</sup> and circulars

The IA has issued the following Guidelines as relevant to the long term business:

- GL1 - Authorisation Guidelines
- GL4 - Guideline on "Fit and Proper" Criteria under the Insurance Ordinance (Cap.41)
- GL5 - Guideline on Application for Authorisation to Carry on Insurance Business in or from Hong Kong
- GL7 - Guideline on the Reserve Provision for Class G of Long Term Business (revised in December 2006)
- GL10 - Guideline on the Corporate Governance of Authorised Insurers
- GL11 - Guideline on Classification of Class C - Linked Long Term Business
- GL12 - Guideline on Reinsurance with Related Companies
- GL14 - Guideline on Outsourcing
- GL15 - Guideline on Underwriting Class C Business
- GL16 - Guideline on Underwriting Long Term Insurance Business (other than Class C Business)
- GL17 - Guideline on Reinsurance

Insurers are expected to comply with the guidelines. Depends on the facts and circumstances, violation may subject the insurer to regulatory actions.

### 3.2.3.4 Professional conduct and actuarial guidance notes

To maintain a high level of professionalism among members, the ASHK regulates actuarial practice of members by issuing By-Laws, professional standards and actuarial guidance notes.

The actuarial guidance notes (AGN) currently applicable are:

- AGN 3: Additional Guidance for Appointed Actuaries (Revised on 23 October 2002)
  - Actuarial Guidance Note - Supplement to AGN 3 Additional Guidance for Appointed Actuaries (Effective 1 January 2013)
  - Actuarial Guidance Note - Second Supplement to AGN 3 - Additional Guidance for Appointed Actuaries - Additional Guidance for Determination of the Valuation Interest Rate (Effective 17 November 2014)
- AGN 5: Principles of Life Insurance Policy Illustrations (Effective from 17 June 2013)
- AGN 7: Dynamic Solvency Testing (Effective from 31 December 2016)

The actuarial guidance notes are meant to be suggested standards of practices for actuaries practicing in Hong Kong. Actuaries are expected to review, understand and follow the

---

<sup>3</sup> All Guidance Notes promulgated by the OCI have been renamed as Guidelines, and the abbreviation have been changed from "GN" to "GL".

guidance. If an actuary's practice is different from the AGNs, the actuary should document the rationale and quantify the impact of any differences.

The existing regulations, Guidance Notes and circulars have had profound impact to the industry. For example, post GL15, indemnity commission became prohibited, and the Investment Linked Assurance Schemes (ILAS) market evolved into primarily single premium products. Subsequently, the ILAS market experienced significant declines in sales volume.

### **3.2.3.5 Market conduct**

In order to synchronise with the Insurance Core Principle 19 (ICP 19) published by the International Association of Insurance Supervisors (IAIS), the IA has issued GN 15 and 16 (now known as GL 15 and 16)<sup>4</sup> for insurance companies writing long term life insurance contracts in Hong Kong. The main objective of the guidance notes is to incorporate the principle of "fair treatment of customers" from the initial stage of product design to the final servicing of the insurance policies. Insurance companies are required to perform functions including, but not limited to, the following:

- Incorporate the treating customer fairly principles as a part of the corporate culture;
- Improve the disclosure of the risk profiles of the insurance products, including illustration;
- Study the reasonableness of the fee structures;
- Evaluate the suitability of the products to potential customers;
- Monitor the conduct of intermediaries during the sales process;
- Continue adequate communications with customers; and
- Maintain a post sales process to identify potential market conduct issues.

These guidance notes are principles-based regulations rather than rules-based. The general practices may vary widely among insurance companies in Hong Kong due to factors such as company philosophy and limitation on resources. The market practices, however, are expected to gravitate towards a narrower range after the IA reviews the industry's compliance status.

In response to the guidance notes, the HKFI has developed standard benefit illustration for ILAS, Participating Insurance Products and Universal Life (Non-Linked) Products.

Although there are vast similarities between ICP 19 and the guidelines, there are minor discrepancies between them.

---

<sup>4</sup> All Guidance Notes promulgated by the OCI have been renamed as Guidelines, and the abbreviation have been changed from "GN" to "GL". The above mentioned Guidance Notes (now known as Guidelines) are:  
Guideline 15 – Guideline on Underwriting Class C Business; and  
Guideline 16 – Guideline on Underwriting Long Term Insurance Business (Other than Class C Business).

### **3.2.3.6 Taxation**

In Hong Kong, all corporations including insurers are subject to profit tax. Profit tax is determined by applying a profit tax rate to the assessable profits. For life insurance business, the assessable profits are deemed to be 5% of the net premium or the life corporation can elect it to be the local statutory profits in the year less any dividend received. The election is irrevocable.

### **3.2.4 Valuation of assets and liabilities**

This section covers the regulations on long term business from the aspect of valuation, reserving and solvency margin requirements.

#### **3.2.4.1 Chapter 41 Insurance Ordinance**

An effective and responsive regulatory framework which instils public confidence is essential to the healthy development of the insurance industry in Hong Kong. The Insurance Ordinance (Cap.41) prescribes the regulatory framework for insurers and insurance intermediaries. It is being continuously reviewed and updated to keep in pace with changing market conditions and international practices.

The Insurance Authority regulate and supervise the insurance industry for the promotion of the general stability of the insurance industry and for the protection of existing and potential policyholders.

#### **3.2.4.2 Chapter 41E Insurance Companies (Determination of Long Term Liabilities) Regulation**

Chapter 41E covers the determination of the amount of liabilities of an insurer in respect of its long term business. In accordance to Chapter 41E, the amount of liabilities of an insurer in respect of long term business shall be determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate for insurers.

In general, the amount of liabilities shall be determined separately for each contract by a prospective calculation, along with prudent assumptions that shall include appropriate margins for adverse deviations.

A retrospective calculation may be applied to determine the liabilities where a prospective method cannot be applied to a particular type of contract or benefit, or where it can be demonstrated that the resulting amount of the liabilities would be no lower than would be required by a prudent prospective calculation.

The liabilities also need to recognise all guaranteed benefits, including guaranteed surrender value, as well as vested, declared or allotted bonuses to which policyholders are already entitled.

### **3.2.4.3 Chapter 41F Insurance Companies (Margin of Solvency) Regulation**

Hong Kong regulations require that the assets held by an insurer exceed its liabilities by a certain amount. This amount is the greater of the 'relevant amount' under the Insurance Ordinance (IO) or the required margin of solvency from the solvency regulations (Cap 41F). Both of these are dependent on the type of business sold by the insurance company.

The 'relevant amount' for life insurers under the IO is HKD 2 million. This relevant amount is not indexed for inflation, and serves effectively as a minimum amount of assets that need to be held in excess of a life insurer's liabilities.

The required margin of solvency under Cap 41F is calculated based on the mathematical reserves and capital at risk for each class of business. The key classes of business in life insurance are class A, which corresponds to traditional products, and class C, which covers linked business.

An insurer who sells both long term and general business will require an additional amount on top of the amount required for life business.

### **3.2.5 Recent industry developments**

- HKMC Annuity Plan

Due to the rapid aging population of Hong Kong, enhancing the quality of living of the elderly after their retirement is one of the key policy focuses of the Government. In view of the elderly's increasing demand for retirement financial planning support, HKMC Annuity Limited has introduced a life annuity scheme which provides the annuitant with a steady stream of guaranteed monthly annuity payments after paying a single premium.

The overview of the HKMC Annuity Plan can be found at:

[https://www.hkmca.hk/files/hkmcap\\_small\\_banner/1/HKMC Annuity Plan Product Brochure Eng Final.pdf](https://www.hkmca.hk/files/hkmcap_small_banner/1/HKMC%20Annuity%20Plan%20Product%20Brochure%20Eng%20Final.pdf)

- Voluntary Health Insurance Scheme (VHIS)

In 2018, Hong Kong Government has announced the details of VHIS which aims at encouraging more people to use private healthcare services through hospital insurance, thereby relieving the pressure on the public healthcare system in the long run. The VHIS is a policy initiative implemented by the Food and Health Bureau (FHB) to regulate individual indemnity hospital insurance products, with voluntary participation by insurance companies

and consumers. Under the scheme, the participating insurance companies will offer hospital insurance plans that are certified by FHB.

The overview of the VHIS and tax reduction incentive under the scheme can be found at:
