of  
H O N G K O N G  
香 港 精 算 學 會

6 September 2019

Dear ASHK Members,

**The Actuarial Society of Hong Kong (“ASHK”) - Member Consultation on Revised Professional Conduct Code (PCC)**

Following the last member consultation on the revised Professional Conduct Code (PCC) in March 2019, the Professional Matters Committee has incorporated the four proposed additions into the PCC since there were no major comments received from the consultation. Council has also endorsed the changes.

Upon further review of the PCC, the Committee would like to propose one additional elaboration to Section 4 to make it more explicit: -

**A Member shall consider whether input from other professionals or specialists is necessary to assure the relevance and quality of the work.** (New section 4.2.6)

The proposed revised PCC is attached. As required by the ASHK By-Law on Due Process, this Exposure Draft is being circulated to the membership for review and comment. Comments are due by 7 October 2019. Please send your comments to [comments@actuaries.org.hk](mailto:comments@actuaries.org.hk). The Committee will review and respond to all comments received. It is then expected that the Council will adopt the revised PCC, following which it will then be submitted (along with the previous four proposed additions) to the membership for approval at the Annual General Meeting in December 2019.

Thank you.

On Behalf of the ASHK Professional Matters Committee,

Peter Duran  
Chairperson

Encl.
