actuvview User Guide

In 2021, the Actuarial Society of Hong Kong (ASHK) will join Actuvview which operates an online streaming platform for actuaries with actuarial video content being constantly updated. We are pleased to announce this new benefit to our members as a good online source of wider knowledge as well as an alternative to gain CPD hours.

Actuvview is the first streaming platform for actuaries. Developed by the German Association of Actuaries and partners from the actuarial community, Actuvview is the first international streaming platform for actuarial media. It is regularly updated with digital content for the actuarial community – either broadcast live from international actuarial events, provided as recorded sessions from Actuvview partners or produced as webcasts by individual experts.

ASHK members can register for free to access all content offered on www.actuvview.com.

Free access will continue to be available until end 2022. Future subscription will be considered only after member usage evaluation.

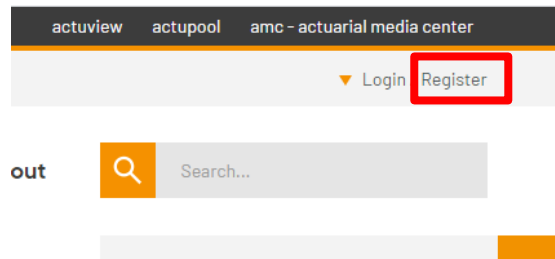

Check out the online access instructions for ASHK members on the next page.

Important Notes

You can print a list of recordings you view in a selected period of time as a CPD record (if at least 90% has been watched). ASHK members MUST document each actuvew watching record with a learning outcome under the 'CPD Event Log' of the ASHK online member zone.
